REF : Your Memo of 30 Sept. 1959, re Material for Cornerstone Box

1. We have no objection to the inclusion in the Cornerstone of the items listed on the attachment to your 30 September memorandum with the exception of item 14 and certain of the current and sensitive reports under item 21.

2. To include these latter items would require additional expensive protective measures in the way of guards or construction. May we suggest that these items be included at some later date, when the building is under full security control. If this is impractical, we would recommend the elimination of the following papers:

a. Item 14.

b. All reports under item 21 except:

(1) MIS Standard Instructions

(2) OCR - Searching for Information
